

The divides the earth in half. It is a great imaginary line around the middle of the It divides the earth into equal parts – the and the Southern Hemispheres.

Name the 5 oceans of the world.

Europe

Europe is a continent. It is the western part of a larger landmass called *Eurasia*. It is not part of Asia, even though it is joined to it, because of a boundary that includes the Ural Mountains in Russia and the Bosphorus river in Turkey. There are over 50 countries in Europe and 23 official languages spoken.

Questions
